LOUISIANA'S GOVERNOR ALLEN DIES SUDDENLY

STATE'S DEATH TOLL REACHES 33; COLD ABATES

Mercury Fails to Get Below Zero for First Time in Week

ABOVE, MINIMUM HERE LAST NIGHT

Warren Girl, 7, Burned Fatally By Flames of Gas Stove

Three deaths increased to 53 today as the toll of fatalities traced directly or indirectly to the extreme cold wave in 51 years rose slowly from a week of subzero readings. The minimum temperature of 5 degrees below zero tonight. It predicted rising temperatures tomorrow accompanied by light snow. "It looks like we'll have no more snow weather—right away," Mize said.

"Warm" in Salem for the first time in almost a week, the mercury failed to get below the zero mark last night. After climbing to the comparatively "high" mark of 7 above zero yesterday, the mercury started to climb again at 6 a. m., reaching 7 degrees, and at noon it was 12.

Beth Mae Clark, 7, of Warren was burned fatally when a gas stove set fire to her clothing at the home of a schoolmate. Mrs. Anna May Smith, 33, of Cincinnati, died of burns sustained yesterday when a heating stove ignited her dress. Lawrence Burns, 25, of Dunlap, near Hamilton, died from exposure suffered last Friday when he collapsed after walking the miles from his farm home to a common help after his house caught fire.

The mercury registered an overnight low of 6 degrees below zero at Cincinnati and Hamilton, 1 above at Columbus and 6 above at Cleveland.

Rural Schools Closed

Half of the rural schools in Ashland county remained closed because of drifted roads and a majority of the other counties in the state reported the same situation. More than 1300 pupils in Ashland, East Cleveland, Cleveland Heights and other suburbs of Cleveland were given vacations yesterday because of heating difficulties.

As King Winter Caught Nation in Icy Grip

Ice dams Niagara Falls

These two frigid scenes, top, Niagara Falls dammed by huge ice jams and flocks which checked the American falls; below, an emergency crew driving through drifts near Wheeling, W. Va., to reach the snowbound village of Sherard, were typical of experiences in many states which were swept by icy blasts and heavy snows.

COUNTY HOME REPORT FILED

Expense Incurred During 1935, \$21,148, Supt. John Neil Says

LISBON, Jan. 28.—During 1935 it cost Columbiana county \$21,148 per capita to maintain the county home, the annual report of the institution, filed today with the county commissioners by Supt. John P. Neil, shows.

Total expenditures for the upkeep of this institution were \$27,246.56 and receipts were placed at \$6,601.12. Net expense was \$21,148.44.

Use Farm Produce

Value of farm products consumed at the home during the last year was \$6,000. The home has 425 acres under supervision of which 280 have been under cultivation and improved.

The county spent no money last year at the home for either new equipment, household or farm; or for buildings and grounds.

From the sale of farm produce and stock, the county received \$8,320.12 and inmates or their friends paid into the home office for county funds, a total of \$281.

Inventory shows value of land at \$25,000 and \$52,000 for buildings. The latter valuation has been reduced \$3,000 from the report filed for 1934. Furniture has been inventoried at \$2,500 and machinery at \$3,000, and value of livestock has been placed at \$7,000. Farm equipment has been valued at \$2,500. Net inventory is placed at \$92,000.

As of Dec. 31, last, the county home was sheltering 105 men and 39 women and of this number 77 are natives of Ohio, with 30 being natives of other states and 37 of foreign birth. Five inmates are over 65 years of age. Eighteen inmates died last year, 19 were discharged and two ran away. Two were sent to state institutions.

Expenses for the fiscal year of 1935 have been listed as follows: Salaries of employees, \$8,250.96; medical attendance, \$1,200; groceries and provisions, \$4,890.67; fuel and light, \$1,985.56; drygoods, clothing and footwear, \$1,252.83; household furnishings, \$13.76; drugs and medicines, \$66.47; tobacco, \$389.15; livestock, \$4,122.88; feed, grain, fertilizer and other farm supplies, \$896; vehicles, implements, machinery and tools, \$1,458.66; burial expenses, \$216; repairs, \$675.70; other ordinary expenses, \$2,158.92.

GAMBLING BAN ANNOUNCED BY POLICE CHIEF

Enforcement Program to Have "Teeth", Says Stoffer

POLICE RECEIVE MANY COMPLAINTS

Warning Today Will Be Followed by Thorough Checkup

Preparatory to an anti-gambling campaign with "teeth" in it, Chief of Police Ralph N. Stoffer today sounded a warning "to whom it may concern."

Lid's Going On

"The lid's going on," Chief Stoffer said today as preparations got under way for a thorough checkup, to determine, as he put it, just how many followed the warning.

The campaign comes as an aftermath, Chief Stoffer explains, of numerous complaints received at the city hall.

The complaints come from wives and mothers, he says, and the number has been increasing.

The ban will include slot machines, punch boards and other devices, it was announced.

Boards Are Banned

"We've had many complaints of children of varying ages spending their money in slot machines, punch boards and such machines," said Stoffer, "and some action must be taken to curb this practice."

The ban will also include "race horses."

"We are issuing this warning to notify everyone of what to expect," Stoffer declares, "and we expect them to act accordingly. It will be unfortunate for anyone who disregards the warning, because the enforcement of this order will have teeth in it."

Sen. Robinson Replies Today To Al Smith for New Dealers

(By Associated Press)
WASHINGTON, Jan. 28.—New Dealers looked to Sen. Robinson of Arkansas to deliver tonight a vehement reply to Alfred E. Smith's charge that the Roosevelt administration has violated the party platform and turned to Socialism.

At the same time, political observers were waiting eagerly to hear what Senator Borah (R., Idaho) who is boomed by his friends for the Republican presidential nomination, will say when he takes the stump tonight in Brooklyn.

The speech which Robinson, the majority leader of the senate, will make tonight over a nation-wide (Columbia) network at 10 p. m. Eastern Standard time, is expected to give an inkling of the administration's attitude toward the "walk that Smith threatens to take."

As Robinson labored on the address, its contents were not disclosed, but the title, "The Hands of Esau," gave a hint of its nature.

DOCTORS' EFFORTS FUTILE

Succumbs As He Prepares to Leave for Capitol Office

(By Associated Press)
BATON ROUGE, La., Jan. 28.—Governor O. K. Allen died unexpectedly today at 10:40 a. m. Central Standard time (11:40 in Salem) from what was announced as a cerebral hemorrhage.

Governor Allen was seized with a sudden attack at the executive mansion at 8:50 a. m. He apparently had been in good health and was just preparing to leave the mansion for his executive offices in the state capitol.

Medical Attention Fails

A corps of physicians was hastily summoned, including Dr. C. A. Lott, one of the physicians of the late Senator Huey P. Long, political associate of the governor.

But all medical attention failed to rally the governor and he died at 10:40 a. m.

The white-haired governor succeeded to the leadership of Long's organization following the fatal shooting of the United States senator in the capitol here last September.

He was elected Democratic national committeeman succeeding Long and headed the successful campaign of the administration in the Democratic primary Jan. 21.

Allen was nominated in last week's primary, to serve out the unexpired senatorial term of Long.

A NEW FEDERAL RESERVE BOARD

Nominations by President Roosevelt for the federal reserve board will interest bankers directly; every citizen has an indirect interest in the composition of the new reserve board.

The federal reserve system depends upon two things for its effectiveness, the provisions of the federal reserve act and the character and interests of the men who administer the act.

Banking reform under the Roosevelt administration has taken the direction of increased political authority over operations of the federal reserve system. It is reasonable to suppose that the increase of political authority will take place, also, in appointments to the reserve board.

Critics charge that President Roosevelt is not interested in preserving even a semblance of independence on the board. The country has a right to expect, therefore, that the senate, in considering the nominations made by the President, will determine first of all the individual characters of the appointees. Their terms range from 14 years, down through 12 and 10 years to short terms of 4 and 2 years. The appointees, in other words, will be responsible for the proper conduct of the federal reserve system much longer than the administration which selected them. They should bear the indelible stamp of one particular philosophy of banking conduct.

"IT HURTS"

The United States wanted to know what Alfred E. Smith would say Saturday night at the Liberty League banquet in Washington. Why?

First, because Mr. Smith is personally popular with millions of Americans—more than 15,000,000 of them voted for him when he was a candidate for the presidency in 1928.

Second, because Mr. Smith is an influential personality in the Democratic party. He was a strong leader in 1928 and he continues to be powerful as an individual in 1936.

Third, because Mr. Smith does not believe in the present leadership of the Democratic party. That leadership has made it impossible for him to be comfortable as a member of the party. By his own admission, he cannot be comfortable outside the party; therefore, he is trying to displace its present leadership.

Fourth, Mr. Smith is perhaps the most effective spokesman for the conservative point of view, a fact which makes what he has to say interesting to conservative citizens of all political affiliations.

His speech Saturday night was a strong presentation of his beliefs, both as an influential Democrat and as an influential conservative, in the sense that he is opposed to the so-called liberal policies of the Roosevelt administration. Mr. Smith's speech revealed the schism that threatens the Democratic party. It showed, also, the outline of the issue which has divided the United States between Roosevelt new dealers and opponents of new dealers.

Mr. Smith admitted that it hurt to criticize his own party. Yet, so valid are his criticisms that every American wonders what the Roosevelt leadership can do to placate Democrats like Mr. Smith who are unwilling to endorse an administration which has disregarded its own statement of principles and has chosen so many of the tenets of socialism.

Even more interesting that the question of what Mr. Roosevelt can do to placate unaffected Democrats is the question of whether or not he intends to try to do anything. The differences which he describes are so sharp that it does not seem possible to smooth them over. Possibly, Mr. Smith does not believe there will be an effort toward reconciliation. On that assumption, his Liberty league speech was the declaration of a split in the Democratic party.

O. O. McINTYRE

NEW YORK DAY BY DAY

NEW YORK, Jan. 28.—The new flash in society orchestra leaders is Mario Braggiotti, of the radio piano duo of Fray and Braggiotti. He launched himself at the Casino and brought out the minkiest crowd since the hand-picked list Tony Biddle lined up for the beginning of Sid Solomo's regime.

Braggiotti is of a distinguished Italian-American family and his two sisters are notched high in the upper crust. He has the perfumed manners of the established continental. Heidelberg and Sorbonne were stops in his student career. His hopes are for the concert field.

For about five years he and the tall Frenchman Fray have been doing their piano act, a model of simultaneous precision. In his orchestra, he directs sitting at the piano and improvising with the stylized rhythm of Eddie Duchin. Not forgetting to look out and smile at the dancers who catch his eye.

Duchin, incidentally, made his bow at the Casino with Leo Reisman and went up like a shot to a leadership and several thousands weekly. Braggiotti's success again stresses that the sweet and hot type of dance music is bowing out. The languorous muted style is the billiards.

Much of what is left of the social comedy is furnished by the insane hilarities in one of its hat shops, an amazing place known as John-Fredericks, Inc. and from which comes many of the sly ribald gags. John and Fredericks, the proprietors, are two male

milliners who swish about in what seems perpetual frolic. Yet they gross a quarter of a million yearly. Of German descent, their mothers were milliners and they picked up a flair for fashioning hats playing around the trimming rooms. No more revealing sum-up of their odd meter could be written than that turned out by Margaret Case Harriman in a recent profile. She wrote: "They have perfected the repository instinctive to most men who deal professionally with women's clothes—the patter of frivolous news and outrageous comment, the lightning glance of appreciation at a new dress—and they maintain a careful attitude of irreverence toward their own business." That's slick descriptive writing.

They were harking back to cub reporter days and incidents that remained indelible. All could be listed under trivia. Mine was coming upon Alice Roosevelt Longworth in a garden of the Longworth home in Cincinnati, where she was visiting shortly after her marriage, daintily puffing a cigaret. The press had dubbed her Lady Alice and she seemed to my greenhorn eyes the most glamorous person I had ever seen. In those days I was a chronic blusher and in my stammering confusion I nodded toward the cigaret and inquired: "Cubies, I suppose?" I can still recollect a little thinking of it.

And it was Chic Sale who came home from an apple butter boiling to face his grandmother's scornful: "No satisfied with stayin' out until put high 10 o'clock you come home smellin' up the house with them cubbies."

From Savannah, Ga.: "Whenever you hear some hooty toity in New York laugh at 'you all,' just remember we haven't slipped to 'youse guys.' Incidentally Longfellow used 'you all.'"

William Gaxton has made such a smash of his perfume business that, what with income taxes as they are the stage may lose him for awhile. Gaxton's experiment was one of merchandising ruddy scents solely to men—a light, clinging odor that might suggest a recent exit from a barber shop instead of an exotic personal vanity. J. P. Morgan, I hear, likes a touch of cologne on his kerchief. J. Ham Lewis is a lover of fine perfumes. Flo Ziegfeld used to spray his office with \$18 an ounce scents at intervals. King George liked an old fashioned honey suckle perfume that was the favorite of Queen Victoria.

Mrs. Mike Hogg, of Houston, has one of the most complete perfume collections in America. It was collected by an expert in France over a period of many months and would fill the shelves of an average perfume shop. Clara Bell Walsh has the largest private collection in New York. Peggy Joyce spends more for perfume than any other woman. I am told.

A radio crooner is pleading for his boots and saddles to go back to the range. And Henry Sell, thumb-twiddling before the fire, swings from his reverie long enough to murmur he knows where he can get a couple of boots all right, all right.

THE STARS SAY

For Wednesday, January 29

An eventful day with the element of surprise and sudden visitation is presaged from the predominant lunar and mutual aspects. This sudden breaking up of old crystallized conditions may be the means of important rearrangement of the affairs with new interests and environs. This profitable and progressive situation will be fostered by those in influence in big business, probably arising as a reward of merit, steadfastness and hard work. The social affiliations also will have many surprising and pleasant angles.

Those whose birthday it is may find themselves confronted by a year of sudden and surprising change of radical benefit, following the breaking up of old stagnations or delays.

A child born on this day may have many unusual talents, being industrious and faithful to important interests, who will be in friendly mood for co-operation.

A Review of the Day's News

By Arthur Brisbane

Reg. U. S. Pat. Off.

THE SERI INDIANS, last fighting tribe in North America, will push birth control to the last extremity, Juan Tomas, aged chief of the tribe, says his people will have no more babies, thus escaping forever disease and hardships that make their lives miserable.

THAT HAS happened before; a small nation of South America, taken over, managed and controlled, for its own good, by a religious organization, decided that life was not worth while under civilized Christian conditions. Babies ceased to appear, not by agreement, but from sheer weariness of life.

THE SERI INDIANS were serious fighters, and built on the shore of the Gulf of California a "mysterious" temple of skulls taken from white men. Each year, after the fishing season, they visited the pyramid and renewed their oath to kill every white man.

They failed in that plan; the temple of skulls still stands and the Seri Indians go there to "mourn our former glory."

Piling up skulls is not new; conquerors from far Asia did it in Europe long ago. One built a pyramid of half a million enemy skulls or more, lighted it from the inside, and greatly enjoyed looking at it.

What a long way from that pyramid to the Taj Mahal in India and the Sainte Chapelle in Paris.

THE UNNECESSARY air disaster in Hawaii, two United States bombing planes destroyed in collision while flying "in formation" and six men killed, causes aviators to say that they object to night formation flying. They may well object; nothing more densely stupid could be imagined than sending up planes to fly at high speed, almost wing to wing, inviting disaster and death.

Even in these busy times, there ought to be somebody sufficiently intelligent to stop that nonsense, at night, and in daytime also.

ENGLAND believes that her new king, Edward VIII, intends never to marry. As Prince of Wales he received, and still receives as king, a large income from the Duchy of Cornwall, taken over by the Black Prince long ago for the benefit of the oldest sons of English kings. Edward VIII will hand on the Cornwall income to his brother, the Duke of York, his apparent, to help with his increased expenses.

If the king expected to marry and have a son he would retain the Cornwall revenue for his own future Prince of Wales. But, even kings sometimes change their minds, or ladies change their minds for them.

There may be somewhere, in a British of continental nursery, a little girl, who, later, will convince Edward VIII that a bachelor's life is dull.

MR. JOHN HORAN, of Milwaukee, called by his fellow workers "Soda Ash Johnny," first used soda ash to clean locomotive boilers, a discovery that should have made him rich, but did not.

"Soda Ash Johnny," a proud man, refused to let his son accept a pension, told the authorities: "I am still able to work, and no boy of mine is going 'round the country.'"

It will surprise you to hear that the son, aged 66, had applied for an old age pension.

"Soda Ash Johnny," aged ninety-eight, oldest railroad worker in the country, has worked for the Milwaukee Railroad Company 82 years. Perhaps he has enjoyed his life more than if he had spent the last 30 years spending every month as fast as he got it \$200 given to him by the government.

Nevertheless, everyone hopes that the old, in need, will be provided for as generously as may be possible, and without waiting until they are 98.

THE ENGLISH are excited about their first "bump-off" and "ride." Scotland Yard, in great excitement, seeks a young girl in a leopard skin coat, seen at a roadside cafe in Hertfordshire talking with a man whose body, thrown from an automobile, was soon afterward picked up on the roadside.

The victim, dealer in jewelry, aged 55, had many bullets in his body; English newspapers call it a "crime in the American style."

This country has long ceased to be excited about such trifles.

HEALTH

By Dr. Royal S. Copeland
New York City

Mental Poise Necessary

FEW PERSONS realize that the body, even if properly nourished, is not in perfect health unless its owner possesses a proper state of mind. Certain emotions disturb the functions of the body and in this way interfere with normal health.

Excitement, fear and anger are common causes for digestive disorders. To have digestion properly carried on, certain glands must manufacture normal quantities of certain substances. For example, the salivary glands, secrete saliva; in its turn this helps to change starches into sugar. The juices of the stomach carry on the work of digestion.

When we are happy, contented and relaxed, the salivary and gastric glands are stimulated to activity. But when we are upset, the secretions of these glands are retarded. This leads to impaired digestion, a disturbance which may persist for some time.

Don't Worry
In addition to the poor digestion, other functions of the body may become disturbed. No doubt you are familiar with the expression "cold sweat" and know what I mean by the term. This is caused by temper, anger, fear and worry. It leads to "paleness" of the skin, caused by contraction of the blood vessels. The heart beats rapidly, there is hurried breathing and trembling of the whole body.

The adrenal glands are small structures lying in front of each kidney. They are strongly affected

by emotional disturbances. These glands secrete a substance called adrenalin. Increased amounts of adrenalin cause the pupils of the eyes to dilate, it makes the hair stand erect, contracts the blood vessels, stimulates the heart and stops the action of the digestion canal. When we are frightened or emotionally upset, these changes are emphasized.

It should be part of everybody's training to learn how to avoid anger, fear, worry, excitement and other distressing emotional states. Certainly it is silly to worry, because half of the time the trouble we worry about never comes.

Form Good Habits

I believe that happiness and cheerfulness are habits. They can be acquired as other habits are. It is only possible to acquire this healthful habit, by assuming that there is something to be glad about in every situation in life.

I have noticed in many cases that the period of recovery of a patient who is happy and content, outstrips the grouchy and intolerant one. In many instances long periods of suffering and unhappiness might be prevented by controlling the emotions.

Mental excitement and fatigue should be avoided. This advice is especially important to those persons who are inclined to suffer from nervous fatigue and upset. Everybody should have adequate hours of sleep, relaxation and rest. Eat at regular hours and get a full quota of fresh air, sunshine and diversion.

Modern External Treatment Helps End Colds Sooner

Just Rubbed on at Bedtime Its Double-Action Continues Through Hours of Restful Sleep.

OFTEN RELIEVES BY MORNING

Before a miserable cold gets you down, get to bed and apply Vicks VapoRub. Two generations have proved VapoRub the surest help to a milder, shorter cold.

Just rubbed on throat and chest at bedtime, VapoRub acts two ways at once:

1. By stimulation through the skin like a poultice or plaster.
2. By inhalation of its penetrating medicated vapors, released by body heat and breathed in directly to inflamed air-passages.

Continuing through the night, this combined vapor-poultice action loosens phlegm—soothes irritated membranes—helps break congestion. Often, by morning the worst of the cold is over.

For Fewer and Shorter Colds

Note for your family: Vicks has developed, especially for home use, a practical Plan for Better Control of Colds. This commonsense guide to fewer and shorter colds has been clinically tested by practicing physicians and further proved in every day home use by millions. Full details of Vicks Plan come in each VapoRub package.

INVESTMENTS

A building and loan association invests its funds principally in first mortgages on real estate. Practically all of the older authorities on investments take the position that such mortgages rank high in point of safety, but not so high in point of liquidity. This position may have been well taken with respect to the old type of straight mortgages that formerly prevailed, but it certainly is not so well taken with respect to the installment mortgage which prevails today.

Today's Pattern

SOFTLY STYLED FROCK Pattern 2657.

Here's a softly styled all-occasion frock that mother or daughter will find equally becoming. Daughter, who needs a semi-tailored dress for school, is sure to spy the thumbnail sketch of pattern 2657, which trims its yoke with buttons, and tops it with a jaunty Peter Pan collar. Both will more than likely favor the version with smart, upstanding collar and neat bow tie, to say nothing of the slenderizing skirt seams. Both will find the soft fullness of the sleeves most flattering, and the dress, as a whole, easy to make. Choose a bright alpaca crepe for the more tailored version, and triple sheer, for dressier occasions.

Pattern 2657 is available in sizes 14, 16, 18, 20, 32, 34, 36, 38, 40 and 42. Size 16 takes 3 1/2 yards 39-inch fabric. Illustrated step-by-step sewing instructions included.

Send fifteen cents (15c) in coins or stamps (coins preferred) for this Anne Adams pattern. Write plainly name, address and style number. Be sure to state size.

Be sure to order our Spring Pattern Book for smart new clothes that'll fit you and your needs to a "T." Gay, practical frocks to cheer you at work. Lovely party frocks and sports clothes to flatter you at play. Collars, blouses, skirts for multiplying costumes. Chic slenderizing styles. Patterns for tots. Fabric and accessory news. Price of book, 15 cents. Book and pattern together, 25 cents.

THERE IS NO SUBSTITUTE FOR NATURAL "BULK"

Needed to Correct Constipation*

Most people recognize the seriousness of constipation. But too often they dose themselves with strong cathartics that often actually lead to chronic constipation.

The natural way to check common constipation is to correct the condition which causes it—usually, insufficient "bulk" in meals.

How can you get "bulk"? Fruits and vegetables have some. Bran has more. The most popular product of this kind is Kellogg's ALL-BRAN.

The "bulk" in ALL-BRAN is gentle in action. ALL-BRAN also supplies vitamin B and iron.

This delicious cereal is a wholesome food. Serve ALL-BRAN regularly for regularity, with milk or cream—or use in cooking.

Two tablespoonsfuls of ALL-BRAN daily will usually correct constipation due to insufficient "bulk." If not relieved, see your doctor.

ALL-BRAN gives you gentle internal exercise. Sold by all grocers. Made by Kellogg in Battle Creek.

THE GHOSTS OF PAID BILLS
Have you ever had the "ghost" of a bill that you thought was paid and "dead," pop up for repayment?
You knew you had paid it, but where was the receipt? You hadn't saved it, or you had lost it, and there was nothing to do but to pay the bill the second time.
A checking account will banish all these troublesome "ghosts" and give you absolute evidence of payment.
If you can't afford to pay bills twice, then you can't afford to be without a checking account.

Ohio State Athletic Director Raps M.I.T. Prof. For Ignorance

L. W. St. John of Buckeye School Says Prof. George Owen's Charges of Subsidy In Football Started Something He Can't Finish

(By Associated Press)

COLUMBUS, Jan. 28.—L. W. St. John, director of athletics at Ohio State university, charged Prof. George Owen of the Massachusetts Institute of Technology today with "complete ignorance of athletic eligibility requirements and procedures in the western conference."

St. John made public a letter from Professor Owen, in which the eastern educator said he declined to be drawn into controversy over statements allegedly made regarding commercialism in football and athletics in colleges and universities in general, and at Ohio State and Notre Dame in particular.

The Ohio State athletic director received the letter from Professor Owen after a protest to President Karl Compton of Massachusetts Tech.

Professor Owen wrote:

"In the first place it is difficult for me to understand how or why any words of mine should have apparently created such a ruckus throughout the football world of the United States."

"In the second place I was so badly misquoted by the press on this occasion, and my statements so distorted that it is a wonder I could recognize them myself."

"In your case, I am happy to state to you what I have already said to one or two others, i. e., if any actual statement of mine is untrue, then I humbly apologize. I am not responsible for misquotations. I must decline to be drawn into controversy."

"You have mentioned the name of Maj. John L. Griffith, commissioner of athletics for the Western conference."

"Let us suppose that I were to submit to the Major actual names, actual institutions, dates, etc., where would this get us and to what purpose? What assurance would I have that the good Major would vigorously press an investigation or investigations, and if so, to what end? Again, I must decline to be drawn into controversy."

St. John had this to say about Professor Owen's letter:

"Professor Owen's explanation places him in the ridiculous and well-known position of having started something that he couldn't finish."

"He is like the fellow who sets fire to a neighbor's barn, and not only refuses to help put out the fire but expresses surprise that the barn is aflame and insinuates that where there is so much smoke there must be some fire."

"His apology is evidently of the king's-X variety. His quasi-dignified statement that he 'must decline to be drawn into controversy' is evidence to it. The only logical inference from this position is that he is not in position to support the damaging statements which he made."

PENNZIPPS RALLY TO WIN CONTEST

Salem Lassies Down Irondale Girls' Team, 25 to 20

Trailing by two points at half time, the Salem Pennzipps rallied in the second half to hand the Irondale Independent girls' outfit a 25 to 20 defeat at Irondale last night.

The Salem girls were only able to score one point in the first period and seven in the second while Irondale tallied 3 points in the opening frame and played on even terms with the rallying Pennzipps to score seven points in the second quarter.

A slow third quarter, in which Irondale failed to score and Salem chalked up but four points to take the lead, was followed by heated play in the final frame.

Adams connected on five field goals and three free throws to lead the Pennzipps scoring with 13 points. The Pennzipps rallied for an engaging contest with the Shearer Grocer girls' team.

Buckeyes 27, Spurs 9.
Tigers 24, Celtics 23.
Snipes 29, Kools 12.

BELAN hammered away at the hoop for six field goals and one free throw in the Skippers 32 to 9 victory over the Rough Riders.

KILLE of the Buckeyes and EAIKEN of the Spurs were outstanding as the Bucks triumphed, 27 to 20.

THE TIGERS and the Celtics staged the leading game of the night in which the former quintet won out, 24 to 23. Rogers of the Celtics collected 12 points.

SHEA led the Snipes as they took an early lead and held it throughout the game to down the Kools, 29 to 12.

ALL members of the Aces' team were able to score when they trounced the Falcons, 24 to 15.

DETEL starred for the Ducks in their contest with the Misfits. The Ducks lost, 16 to 12.

THE HICKS and Shags battled on even terms for three periods. The former quintet snagged the tory, 29 to 26, with a last period spurt.

IN THE slowest contest of the seven game program, the Baggers gained the verdict over the Racketeers, 12 to 9.

Reds Prepare For Training Season With Young Team

CINCINNATI, Jan. 29.—Championship hopes of the Cincinnati Reds will rest again this year on a "kid" team.

A roster of 36, issued as the outfit prepared today for its training jaunt to Puerto Rico and Florida, shows the average age to be 26 years and 3 months—younger even than last year's team, which claimed distinction as the youngest on either major loop. Its average was 27 years and six months.

Kiki Cuyler, obtained from Chicago last year, is the oldest at 36. Only 17 in the group were with the team during 1935.

Twenty-three are right-handed hitters; 13 bat left handed, and Grissom "can take 'em" from either side.

The entire squad will show up for initial training at San Juan, P. R., Feb. 10.

LULL IN BIG 10 ACTIVITY ENDS

Chicago Meets Purdue In Conference Contest This Week

CHICAGO, Jan. 28.—Purdue will wheel its high-powered offense back into the Big Ten basketball wars Saturday to bring to an end the lull of two weeks of the championship season.

The Boilermakers, victorious in three straight games, will entertain Bill Harlow and Chicago at Lafayette, for one of three games of Indiana, leading the league with five straight victories, returns to action against a non-conference foe, the University of Louisville, Friday night.

Saturday night's two games produced one upset but no important changes in the standing. Minnesota achieved the surprise victory, its second of the week, in defeating Michigan, 31 to 26, at Minneapolis. The Gophers checked in with their first upset when Northwestern was defeated, 30 to 29.

OLDTIMERS WIN FROM POTTERY IN LOOP GAME

Veterans Defeat Chinamen, 47 to 24, At Memorial Building

The Oldtimers moved another step nearer the undefeated Columbians in the Class A city basketball league and claimed second place in the circuit standings when they routed the Pottery quintet, 27 to 24, at the Memorial building last night.

The victory was the Oldtimers' fifth in the Class A league. They have been defeated once.

Playing on even terms during the first period, the veteran cagers set a fast pace in the second frame and by the intermission were out in front, 17 to 10.

Pottery Spurts
The Pottery spurred in the third frame to score seven points while it held the Oldtimers to three. McQuilken contributed most of the scores during this period.

In the final quarter, the Chinamen faltered and while they were only able to chalk up seven points, they permitted the Oldtimers to run rampant and tally 27 points.

Drakulich and Older collected 11 and 12 points respectively, to star for the Oldtimers, while M. Quilken, with 12 points, turned in the best performance for the Pottery.

At the Memorial building tonight, along with two Class B league games, the Columbians and Saxons will play a postponed Class A loop contest. The game is scheduled for 8:30.

Most Tremendous Job of Its Kind in History Gets Under Way

(Continued from Page 1)

"They'll have to wait," said Adelbert Miller, executive assistant to Veterans' Administrator Frank T. Hines. "It's going to be a tremendous job."

The bonus bill itself carries no appropriation; that presumably will be passed through congress later, the treasury already has indicated that the financing would increase next year's deficit, possibly to \$5,500,000,000.

Administration officials have expressed a belief that veterans would demand not more than \$17,500,000,000 in cash at present, but it was indicated that the treasury might plan to have \$1,500,000,000 available in case the demands were greater.

Pension Drive Next

Many members of congress predicted the demands for pension legislation would follow enactment of the bonus bill, but they differed widely on when the drive would come.

Already, many bills are before congress for pensions to widows, orphans or other dependents. World war veterans, but there has been no serious move toward general pensions such as are paid to the veterans of earlier wars.

President Roosevelt forecast last year that passage of a cash bonus bill would be the signal for a pension drive. Most congressional leaders, interviewed today, agreed with him though they hesitated.
